SATA patented 1/4 turn system

Photo du godet non-contractuelle.

Gravure en option, rendez-vous dans la rubrique "Customization".

Aluminium QCC cups with 1/4 turn valve

Creation by SGI Pastry

SGI Pastry has created cups with a 1/4 turn valve to allow you to place your cups in an oven instead of the spray gun, keeping your products warm.

The 1/4 turn valve stops the product flow, making it ideal for quickly disconnecting and reconnecting the cup, allowing you to switch from one spray gun to another.

Compatible with all SATA spray guns.

For SATAjet 1000 B, SATAminijet 4400 B et SATAjet 20 B*
(*with adaptator Ref. 135798).

0,15 L - Ref. 40GOALIM0.15L

0,75 L - Ref. 40GOALIM0.75L

SATA patented 1/4 turn system

Placing a spray gun in an oven will cause premature wear of its parts and seals.

This is not covered under warranty by customer service. We recommend placing your cup with a quarter-turn valve in the oven and keeping your spray gun on its stand while waiting.

Aluminum cups QCC

1 - Position the cup and insert it onto the spray gun

2 - Secure it by making a quarter turn, without forcing!

3 - Pour your product into the cup

4 - Close the lid

5 - Your cup is installed, you can spray your entremets

Aluminum cup QCC 1/4 turn valve

1 - Position the cup and insert it onto the spray gun

2 - Secure it by making a quarter turn, without forcing!

3 - Pour your product into the cup

5 - Your cup is installed, open the cup valve by making a quarter turn, and you can spray your entremets.
